

FISH!™ for Schools

Catch the energy & release the potential of your people

The FISH!™ Philosophy is inspired by a group of fishmongers from Seattle's Pike Place Fish Market. They are a shining example of how **you** can create a school culture that encourages people to flourish using the 4 basic principles of FISH!™. What makes FISH!™ so successful is that it is simple and is about people tapping into their own potential. Everybody can relate to the principles and have fun in the process.

How do these FISH!™ principles compare with the values you see demonstrated in your school?

- Play:** Is work fun?
- Make Their Day:** Are everyday encounters pleasant experiences for teachers, students and parents?
- Be Present:** Are teachers just going through the motions or are they present?
- Choose Your Attitude:** Are teachers being responsible for the attitude they have chosen to bring to work?

This workshop is ideal for any school that is ready to inspire, share their energy and create change.

This workshop covers:

- exploring what is currently driving your school
- discovering the Fish!™ philosophy in all it's glory
- watching the movie to see the fishmongers in action!
- adapting the 4 principles for your school/team
- influencing and creating change at work
- tapping into the true potential of yourself and your team
- dealing with cultural change, barriers and resistance
- creating a specific action plan for implementation
- having fun!

Prices vary depending on the number of participants, travel required and duration of the workshop.

Please call Inspirational Coaching to discuss your school's specific needs and create a learning experience they won't forget.
